SCHOOL PROGRAMS
FOR TEACHERS

...all of life together consists of a membrane around earth so thin that it cannot be seen edgewise from a satellite yet so prodigiously diverse that only a tiny fraction of species have been discovered and named.

EO. WILSON

GUIDED TOURS

Beginning with an exhibition tour connecting students with international artists and the innovative uses of technologies, concepts, and ideas from around the world. Students will experience three remarkable art installations where phases of water & sound are used by international artists to communicate big ideas and unique narratives.

Location:
New Media Gallery
Grades: All
Duration: 30 min
Fee: FREE
30 students max

CREATIVE TECH WORKSHOPS

Designed to be fun and interactive, Creative Tech Workshops integrate ideas from the aBIOTIC exhibition together with BC's Core Curriculum. Big ideas inform each exciting 1.5 – 3 hour workshop where a focus on process and inquiry-based learning are key. Encouraging and building on a vibrant and dynamic process of creativity and imagination is our thing; we champion individual and collective brainstorming and focused play!

Location:
Art + Technology LAB
Grades 1-12
Duration: 60-90 min
Fee: \$150 +gst
30 students max

With Creative Tech Workshops, we will:

- Provide a Pre-Activity, Workshop Syllabus, and Post-Activity for each Workshop booked.
- Provide expertise, mentorship, instruction and demonstrations
- Connect students with experienced Instructors who are experts in their area of arts + technology instruction and experienced with creative making.
- Introduce students to technology + creative-making while encouraging student-lead creative experimentation, collaboration, and problem-solving.

BOOKING INFORMATION

- Advance booking is required
- Payment: Visa, Mastercard, Cash, or Cheque
